PROFESSIONAL SUMMARY

Aspiring Full Stack Developer and Data Science enthusiast with strong foundations in Python, JavaScript, and SQL. Experienced in building end-to-end web applications and applying machine learning fundamentals for data-driven solutions. Passionate about developing scalable backend systems, interactive frontend interfaces, and data analytics projects.

TECHNICAL SKILLS

Programming & Core, Python ,JavaScript ,SQL, TypeScript, Git

Data Structures ,Frontend Development ,HTML5 ,CSS3 ,JavaScript (ES6+) ,React

TypeScript ,API Integration ,Backend Development ,Python ,Node.js

REST APIs ,Authentication & Authorization ,SQL & Database Design

System Design Basics

Full Stack Development

MERN Stack Fundamentals

Frontend + Backend Integration

API Development & Consumption

Version Control (Git)

Relational Databases

Data Science & Analytics

Python for Data Analysis, Pandas ,NumPy ,Scikit-learn

Machine Learning Fundamentals ,Data Visualization ,Jupyter Notebook

Tools & Technologies ,Git & GitHub

VS Code

Postman

MySQL / SQLite

Jupyter Notebook
